

Lies! Poison! Deceit!

**Sound like the latest soap opera?
Well it's not.**

**IT'S YOUR LOCAL CTS PLANT AND
YOU ARE THE VICTIM!**

Come join us to learn more.

THURSDAY, JUNE 26th @ 6:30PM

SKYLAND FIRE DEPARTMENT MEETING ROOM

There will be a meeting of concerned citizens working together to get a full and proper cleanup of the toxic waste at the CTS Plant on Mills Gap Road. There have been several important developments and your participation is **GREATLY NEEDED** to get the remedies that will protect the health and welfare of the South Asheville communities that are being exposed to **toxic waste**.

AGENDA:

INFORMATION AND EDUCATION PRESENTATION

- UPDATE OF THE LATEST DEVELOPMENTS ON WELL TESTING
- RESPONSE BY THE VARIOUS AGENCIES
- LINKING NEIGHBORS TO FORM PLANS OF ACTION RELATIVE TO THEIR NEIGHBORHOOD
- QUESTION AND ANSWER SESSION FOR THOSE WHO ARE JUST NOW FINDING OUT ABOUT THE CONTAMINATION AND CRISIS

It is imperative that we get organized based on our neighborhoods because we have varying needs. The common denominator is that we want a full and proper cleanup. We must work to ensure that the CTS Plant is completely cleaned of the toxins that are **making our drinking water unsafe and the air we breathe dangerous**. By being unified and acting with a singular yet common voice, we can and will succeed in the face of years of inaction and ineptitude.

QUESTIONS? Please join us this Thursday and get answers!
